

Art Intent

At Braeburn Primary and Nursery Academy we are determined to encourage and awaken the creative artists within all of our pupils by providing a curriculum that is exciting, engaging and broad. We aim to enthuse children's creativity by planning a varied range of opportunities to access a variety of materials, resources and experiences. By using specific topic vocabulary we intend pupils to build on oracy skills enabling them to discuss what they are doing and why, ask and answer questions and become effective communicators. Art allows pupils to explore and experiment creatively, building on resilience, self-expression and self-esteem. We plan lessons carefully that link to topics and build on skills previously acquired. Planning in phase groups ensures progression and further development of skills and knowledge for children and adults.

At Braeburn Primary and Nursery Academy we aim to give children wider opportunities outside the classroom to access art opportunities including art clubs, family events and craft days which enrich the curriculum providing stimulating learning to engage our children.
